

SECOND INTERNATIONAL ALUMINA QUALITY WORKSHOP

Alumina Quality in a Highly Dynamic Market Environment

PROCEEDINGS

Perth, Western Australia

October 14-19, 1990

With Compliments

INDEX

	<u>Page</u>
"Modern Refinery Design for Quality Alumina: A Worsley Case Study", F.N. Newchurch, K.E. Moretto	1
"The Role Cell Design and Cell Operating Conditions can play in Reducing Problems from Alumina", B.J. Welch	15
"Behaviour of Alumina on Addition to Cryolitic Baths" K.A. Rye, S. Rolseth, J. Thonstad, K. Zhanling	24
"Development of Quality Alumina and Hydrate Based Products in Hungary", G. Baksa, G. Szalay, P. Siklòsi	39
"Effect of Alumina Properties and Operation of Smelting Cells on the Dissolution Behaviour of Alumina", G.I. Kuschel and B.J. Welch	58
"Alternative Disposal of ESP and Hot-End Dusts from Alumina Calciners", L.A.D. Chin	71
"Challenges in Producing High Quality Alumina in Alcan Jamaica Company", M.A. McCatty	78
"A New Process to Improve Metallurgical Grade Alumina Quality by Separate Treatment of ESP Dust", F. Campa, J.M. Alvarado	90
"Sodium Oxalate in the Bayer Process: Its Origin and Effects", G.P. Power and W. Tichbon	99
"The Disposal of Sodium Oxalate from the Bayer Process", K.I. The	117
"Development of an Industrial Oxalate Removal System", D.R. Chinloy	130
"Chemical Additives for the Bayer Process 'Buyer Beware'", G.A. Graham, T.J. Davies	142
"Optimisation of Yield from Continuous Alumina Hydrate Precipitation", G.P. Power, K.E. Moretto	154
"Maintaining Product Quality and Production While Introducing a Newly Developed Venezuelan Bauxite Deposit", F. Peleato	167

	<u>Page</u>
"The Development of Tracer Crystals for Investigating Gibbsite Precipitation in Caustic Aluminate Solutions", D. Ilievski and E.T. White	182
"Probing the Alumina Surface", M. Hyland, R.W. Shaw, D.P. Rodda, B.J. Welch	196
"Quantifying Alumina Phases in Smelter-Grade Alumina by X-Ray Diffraction", G.I.D. Roach, J.B. Cornell, D.Y. Li, B.H. O'Connor	209
"Monitoring the Morphology of Alumina Trihydrate in a Continuous Precipitation Circuit, using X-Ray Diffraction (XRD)", B.P. Loughlin	224
"A New Approach to Bayer Liquor Analysis", J.D. Petty, D.R. Sweatman, T.W. Hamilton, C.M. Kelaart,	237
"Dust and Dustiness Testing of Smelter-Grade Alumina", J.B. Cornell, G.I.D. Roach	246
"Laboratory Instrumentation at the Worsley Alumina Refinery", W.L. Connop, R.A. Morton	264
"The Determination of the Angle of Flow of Smelter Grade Alumina", T.K. Smith	278
"Bulk Density Measurements of Smelter Grade Alumina" D.P. Rodda, D.L. Metcalfe, J.S. Godfrey, R.W. Shaw	292
"Ion Chromatography in the Alumina & Aluminium Industries", T. Bowser and S.C. Grocott	310
"Laser Diffraction Measurement of Fines in Smelting Grade Alumina", B.M. Scott, G.I.D. Roach	339
"The Alcoa Liquor Analyser (ALIAN)" S.P. Rosenberg	355
"The Influence of Handling Operations on the Quality of Alumina in Aluminium Production", S.R. de Silva, G.G. Enstad	367
"The Control of CaO and TiO ₂ in Metallurgical Grade Alumina", R.A. Morton	380
"Advances in Liquor Clarification and Mud Flocculation in the Bayer Process Alumina Industry", T.K. Hunter, G.M. Moody, C.A. Tran	394
