

THIRD INTERNATIONAL ALUMINA QUALITY WORKSHOP

ALUMINA QUALITY - MEETING CUSTOMER NEEDS

PROCEEDINGS

**Hunter Valley, New South Wales
October 17-21, 1993**

Proudly Sponsored by

Allied Colloids (Australia)

Pty Limited A.C.N. 002 927 040

PROCEEDINGS OF
THIRD INTERNATIONAL ALUMINA
QUALITY WORKSHOP
HELD 17-21 OCTOBER, 1993
HUNTER VALLEY, NEW SOUTH WALES

Sydney Armstrong

Workshop Organised by
Milena di Russo Conference Services Pty Ltd (Inc in WA) ACN 059 073 755
As Trustee for Milena di Russo Conference Services Trust
T/A Executive Management Services

The Alumina Quality Workshop Inc. would like to thank the following sponsors:

Albany International

Alcan Australia Ltd

Alesa Alusuisse Engineering Ltd

Allied Colloids

Alusuisse-Lonza

Austraswiss

BTG Australia

Gove Aluminium

Nabalco Pty Ltd

Nalco Australia Pty Ltd

Qantas

INDEX

- | | |
|---|------------|
| Alumina Specifications and Their Relevance to the Aluminium Smelting Process | 1 |
| BJ Welch and N Wai-Poi,
The University of Auckland, New Zealand | |
| Future Bayer Process Directions: The Implications for Alumina Quality | 12 |
| PH Dixon, Alcan International Ltd, Canada and HJ Schenk,
Alesa Alusuisse Engineering Ltd, Switzerland | |
| Modern Aluminium Smelting Technology and Future Trends - Alumina Quality Implications | 24 |
| B Allais, Aluminium Pechiney, France | |
| Evaluation of Alumina Quality Parameters | 48 |
| OM Bakkerud, JA Larsen, Hydro Aluminium, Norway and B Lillebuen,
Hydro Research, Norway | |
| Effect of Variation of the Minus 20 Micron Fraction on the Properties of Smelter Grade Alumina | 68 |
| M Guisasola, F Campa and A Gómez, Alumina Espanola,
Aluminio Espanola SA, Spain | |
| High Productivity with Quality: Expansion of the Alumina Refinery at CVG-Interalumina | 81 |
| S Escalona and P Murgia, CVG-Interalumina, Venezuela | |
| Double Digestion: Technology That Leads Towards Quality and Efficiency | 93 |
| J Doucet, Alcan International Ltd, Canada | |
| Plant Trial of a New Precipitation Line-Up Based on Prediction from the Alcan Precipitation Simulation | 102 |
| DR Audet and JE Larocque, Alcan International Ltd, Canada | |

Co-Production of Chemical Grade and Metal Grade Aluminium-Hydroxides	112
M Altrichter, K Solymár, Hungalu Aluterv-FKI, Hungary and G Baksa, Z Balogh and F Valló, Hungalu AJKA Aluminium Ltd, Hungary	
Calcination - The Interface Between the Refiner and Smelter	121
BE Raahauge, F.L. Smidth, Denmark	
Alumina Quality Survey	158
BJ Welch, The University of Auckland, New Zealand	
Alcan ESP Dust Micro-Granulation Technology	167
K The, C Boulanger, L Tremblay, Arvida Research & Development Centre, R Clegg, S Girouard, Société d'électrolyse et de chimie, Vaudreuil Works, and A Carruthers, Engineering and Technology Group, Alcan International Ltd, Canada	
Determination of Gibbsite in Smelter Grade Alumina	177
GID Roach, J Cornell, Alcoa of Australia Ltd, J Dunn and C Kleppe Curtin University of Technology, Australia	
Bulk Density	186
TJ Davies and AE Mercer, Queensland Alumina Ltd, Australia	
Measurement of Smelter-Grade Alumina Properties	200
B Ledru, Aluminium Pechiney, France and GID Roach, Alcoa of Australia Ltd, Australia	
Effect of Alumina Phase Structure on its Dissolution in Cryolitic Melt	213
X Liu, SF George and VA Wills, Comalco Research Centre, Australia	
Current Alumina Research and Development in Australia and New Zealand	223
MS Wainwright, The University of New South Wales, Australia	

Dynamic Modelling of Alumina Precipitation using the Nimbus Process Simulator	238
PJ Cresswell, Pearson Cresswell & Associates Pty Ltd and RB Newell, CAPE Centre, University of Queensland, Australia	
Bauxite Roasting - An Option to Reduce the Organics Input to Bayer Plant Liquor	254
A Rijkeboer and AP van der Meer, Shell Research Arnhem, The Netherlands	
The Biological Degradation of Sodium Oxalate in an Alkaline Environment	270
RA Morton, Worsley Alumina Pty Ltd, Australia	
Bound Soda Incorporation During Hydrate Precipitation	282
L Armstrong, Queensland Alumina Ltd, Australia	
ISO 9000 & TQM - The Best of Both Worlds	293
K Knight, Albany International Pty Ltd, Australia	
Characterisation of Process Filter Media: A Technological Approach	303
M Gerakios, Albany International Pty Ltd, Australia	
Minimising Soluble Soda in Product Hydrate	313
MG Rogers, Australian Process Technology Pty Ltd, Australia	
Upgrading the Performance of the Hydrate Disc Filters at Nabalco	326
C Lawson, D Grimmond, Nabalco Pty Ltd	
Suppliers/Refineries/Customers: Vertically Integrated Teams	340
JK Claflin, Chemical Engineering Research & Design	
Raw Material Quality Concepts	349
F Giurco, Alcoa of Australia Ltd, Australia
